

The Finnish School of Watchmaking

Independent Watchmaker Course

The Independent Watchmaker Course at The Finnish School of Watchmaking is a comprehensive two-year program designed for aspiring watchmakers who wish to master the craft, design, technology, and tools that drive today's horology. The course provides students with the skills needed to practice small-scale, high-end watchmaking professionally.

The Finnish School of Watchmaking is known for its high-quality training. We have a long-standing tradition of excellence in watchmaking education. We pride ourselves on providing top-tier instruction and fostering a learning environment that encourages innovation and mastery of traditional watchmaking techniques. Our graduates are highly respected in the watchmaking industry and have gone on to achieve success worldwide.

The Finnish School of Watchmaking is operated by a dedicated foundation whose sole purpose is to advance the watchmaking profession. We are committed to preserving and promoting the cultural heritage of watchmaking while embracing new technologies and methodologies that enhance the craft.

Located in Leppävaara, Espoo, the Finnish School of Watchmaking benefits from being in one of Finland's most dynamic and innovative cities. Espoo is home to numerous technology companies, research institutions, and educational establishments, creating a vibrant ecosystem for innovation and professional development. Finland is celebrated as the happiest country in the world, boasting an exceptional education system that emphasizes quality, equity, and lifelong learning. Our country is a leader in innovation and technology, making it an ideal location for advancing one's skills and career in watchmaking.

Course Structure

Year 1: Manual Skills of a Watchmaker

Essential micro-mechanical skills. Extensive hours spend on honing the skill set. Practical and theoretical training in creating watchmaking tools. Various decoration techniques.

Year 2: Watchmaking Skills

Learning the importance of precision and care in watchmaking. Practical and theoretical training in key watch components. Advanced watchmaking skills. Hands-on experience in watch repair and servicing.

Final Project: Watch

Students will design and create their own watch, including the movement for the suitable parts, casing, and hands. Working independently with mentoring from instructors.

Admission Requirements

- **Age:** Candidates must be over 18 years old.
- **Language Proficiency:** Must be able to speak and write English fluently (IELTS 5.0 - 6.0 or CEFR B2).
- **Previous Experience:** No prior watchmaking experience required, but previous professional experience outside the watchmaking field is preferred.
- **Entrance Exam:** Candidates will undergo a bench test to evaluate their abilities and manual dexterity.
